

12kW PAR

Uncomplicated, industry standard power house - the perfect lighting solution for a huge range of applications and techniques

This versatile high output, controllable, light source is ideal for powerful key light in day or night shoots where maximum illumination is required.

Choice of lenses (Medium, Wide and Super Wide) directs the beam pattern as needed. Frosted fresnel creates a wide even spread for smooth fill.

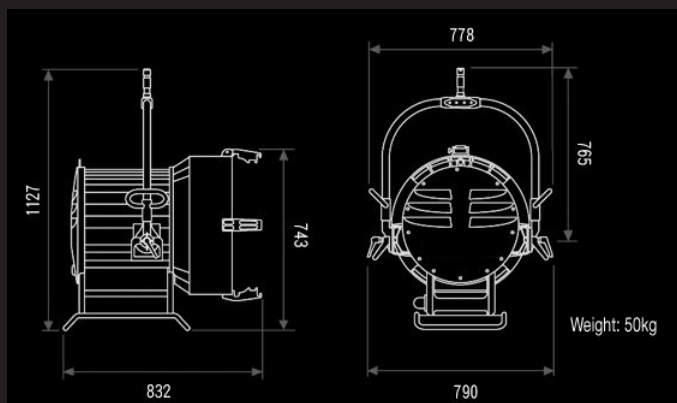

Universal spigot adapter allows safe, secure mounting on a range of stands or rigging points

Choice of accessories offers greater flexibility: scrim sets, snoots

Bulb type: HMI PAR 12000W single ended

Designed for use with 6/12kW Electronic ballast

Colour temperature: 5500° Colour Rendering Index: >90
